

# HOME ALONE

## TOURING EXHIBITION AND EVENTS

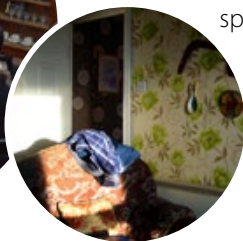

Home Alone, created by Sharon Bailey, is a living room installation of objects, pictures and an audio diary which tells the day-to-day experience and untold stories of living alone.

Sharon visited older people across the north east who live by themselves, stuck in their homes for long periods of time. She photographed and recorded conversations with them, spending hours talking and listening.

Home Alone brings these untold stories and images out of the houses and into public spaces and

encourages us to consider ways we can connect and support each other to live happy and fulfilling lives.

See the exhibition on the following dates and times:
